Model Portfolio Managers and Model profiles

Marcus Today

Founded in 1998 by veteran stockbroker Marcus Padley, Marcus Today is one of Australia's leading independent stock market newsletters known for its in-depth company research and recommendations, financial market and economic analysis, trading and technical ideas and model portfolios. Marcus Today is part of MTIS Private Wealth, a privately owned financial services group offering a broad range of services including comprehensive financial and strategic advice, Self-Managed Super Fund (SMSF) and Family Office advice, and accounting and taxation services.

The Marcus Today culture of "telling it as it is" has translated into a unique portfolio management style which aims to outperform the "average" index return through a top-down assessment of dominant long-term themes combined with superior bottom-up stock selection. This high-conviction style is balanced by a candid approach to risk management and a strong focus on capital preservation.

Model Portfolio Profile: MT0001

Marcus Today SMA

Investment objective: To achieve superior “total return”, combining capital growth with income, by investing in a portfolio of Australian equities listed on the Australian Stock Exchange.

Investment description

The portfolio invests in Australian equities listed or about to be listed on the Australian Stock Exchange, with a minimum market capitalisation of \$50m.

The portfolio will normally have short term cash investments for liquidity management purposes and may hold other listed securities including listed interest rate securities, Listed Investment Companies (LICs) and Exchange Traded Funds (ETFs).

Who is this option suitable for?

Investors who:

- are seeking an actively managed Australian equity portfolio;
- are seeking medium- to long-term capital growth with some income; and
- are prepared to accept some fluctuation in short-term returns.

Benchmark index

S&P/ASX 300 Index (TR)

Indicative number of holdings

Maximum of 50 stocks

Suggested minimum model investment

\$50,000

Risk level

High. Negative return 4 years in every 20 years.

Fees

Investment fee

Base	0.75% p.a.
Performance (estimate)*	0.01% p.a.
Total (estimate)^	0.76% p.a.

Indirect Cost Ratio (approx)** 0.00% p.a.

Performance fee 10%* p.a.

*The Performance Fee is based on the Model's out-performance above the performance benchmark index. Further details can be in the PDS. Investment Fee - Performance (estimate) is based on the average fee per investor over the past 5 years p.a., and is a guide only. Performance Fee is only paid when absolute return is positive.

Investment Fee - Performance (estimate) is based on the average fee per investor over the past 5 years p.a., and is a guide only. Performance Fee is only paid when absolute return is positive.

^ Investment fee - Total (estimate) is the sum of the Base and the Performance (estimate) Investment fees.

** Indirect Cost Ratio (approx) does not include Cash Holding Fee; see PDS for further information.
